I did not find the acceptance rate or number of submissions, but it was one of the first hits on Google when I was looking for multimedia workshops so I assume it has some credibility, but the webpage does not look very good/professional.

Infocom Workshop

Workshop held as a part of the Infocom Conference, addresses key topics and issues related to computer communications, with emphasis on traffic management and protocols for both wired and wireless networks.
I was not able to find much info about this workshop.
Rating: 8
Since this is a part of the Infocom Conference I assume it is a good workshop.
