H17: Due Tue Noon, 03/13 ON GAUCHOSPACE
Total Points: 50

This homework is to be done ONLINE on Gauchospace.

This homework is in the spirit of the following course goal: Learning how to learn a new language on your own.

What to do

Read Chapter 16 in HFJ BEFORE lecture on Thursday 03.08 if possible.

If you have questions about the chapter--i.e. material you don't understand, bring that question with you to lecture on Thursday 03.01. Your instructor will answer as many questions in lecture as time permits. If you have questions that are not answered there, bring those questions to your lab section on Thursday 03.08 or Friday 03.09, and ask your TA.

Then do the following:

(1) (30 pts) Go to the Forum on Gauchospace marked H17 (Chapter 16) and make TWO separate posts.

Your two posts should be homework questions that YOU author. That is, suppose that YOU are the professor for the course and you want to check whether students have read and understood the material in Chapter 16. What questions might you put on a homework assignment (similar to the ones that you've been doing all quarter long?)

Make these TWO separate posts. You should do your best to NOT duplicate any questions that have already been asked--that means the sooner you complete this assignment the easier it will be, and the longer you put it off the more difficult it will be. (The TA may make deductions for duplicate questions.)

The questions can be multiple part questions that add up to 20 points, or they can be a single question that is worth about 20 points.

(2) (20 pts) Find one question by SOMEONE ELSE that you think is a good question that has NOT yet been answered by anyone, and as a "follow up" to the post (i.e. as a reply), answer the question. (If it is a multi-part question, answer it in its entirety.)

(You can post the word "first" to reserve a question for 30 minutes. If you don't answer within 30 minutes, someone else can post "stolen!", and they have 30 minutes. This process is recursive.)

Deadline: Noon Tuesday (03/13).
